

CABLE MANAGEMENT

VERTICAL CABLE MANAGER

INTRODUCTION

Vertical Cable Manager provides a solutions for organizing cable on any standard 19" EIA two post open rack system.

The vertical cable manager can help installers to establish vertical and front- to- rear cable pathways for a single rack or between two bayed racks in the most convenient way.

FEATURES

- Curved cable management design to support bend protection
- Ideal for organizing in-rack cables while maintaining plenty of air flow
- Protecting cables from hidden crushes, kinks and snags
- Specially designed foot stand for auxiliary support
- EIA complaint with black power coating
