

CABLE MANAGEMENT

VERTICAL CABLE FINGER MANAGER

INTRODUCTION

The vertical cable finger manager can be used for managing optical fiber cables, large bundles of data cables and most coax cables combined into a structurally strong vertical cable manager. The vertical cable finger manager keeps the rack and open rack system visually organized and can be removed for ease of cable installation..

FEATURES

- T-shape plastic fingers are spaced at 1RU and provide support for large cable bundles and heavy gauge cables.
- Separated space easily allows for cables to be added or removed.
- Protecting cables from hidden crushes, kinks and snags
- Black

TECHNICAL INFORMATION

Rack Unit Size 1: 42U
 Size 2: 45U
 Size 3: 47U

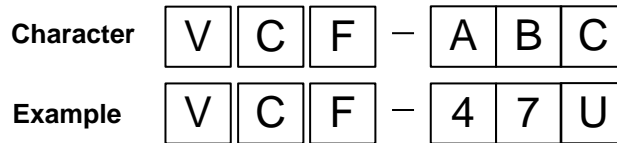

Dimension: 1RU Space
 175mm overall depth
 135(D) x 35(H) mm inner space

Material Plastic

Color Black

PRODUCT NUMBER

Example: VCF-47U = 47U Vertical Cable Finger Manager

ABC – HEIGHT (U)

42U = 42U
 45U = 45U
 47U = 47U
