CABLE MANAGEMENT
HORIZONTAL CABLE MANAGER

INTRODUCTION

The snap-on cover horizontal cable manager is used to protect and manage IT networking and AV cable or a bundle of cable (such as, copper or fiber cables).

Horizontal cable manager also allows flexible cable management which makes easy access to cables for moves, adds and changes in order to achieve a decent patching environment for the whole structural cabling system.
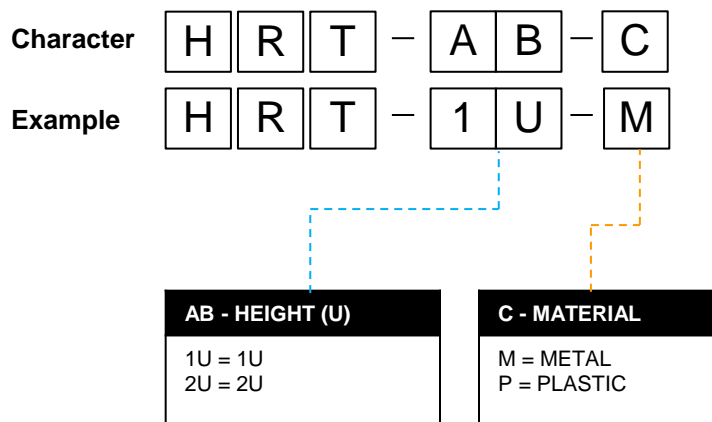

The cable manager is available in 1U or 2U height and made of either plastic or metal material.

FEATURES

- Option 1U or 2U height
- For standard 19" cabinet and racks
- Available in plastic or metal
- Snap-on cover

ORDERING PART NUMBER

Example: HRT-1U-M = 1U 19' Horizontal Cable Manager, Metal, Black

Character	H	R	T	–	A	B	–	C
Example	H	R	T	–	1	U	–	M

AB - HEIGHT (U)	C - MATERIAL
1U = 1U 2U = 2U	M = METAL P = PLASTIC
